

PRODUCT INFORMATION

Product name

Multi-point Forming machine

Models

40*40

60*60

80*80

100*100

Weights

50 T

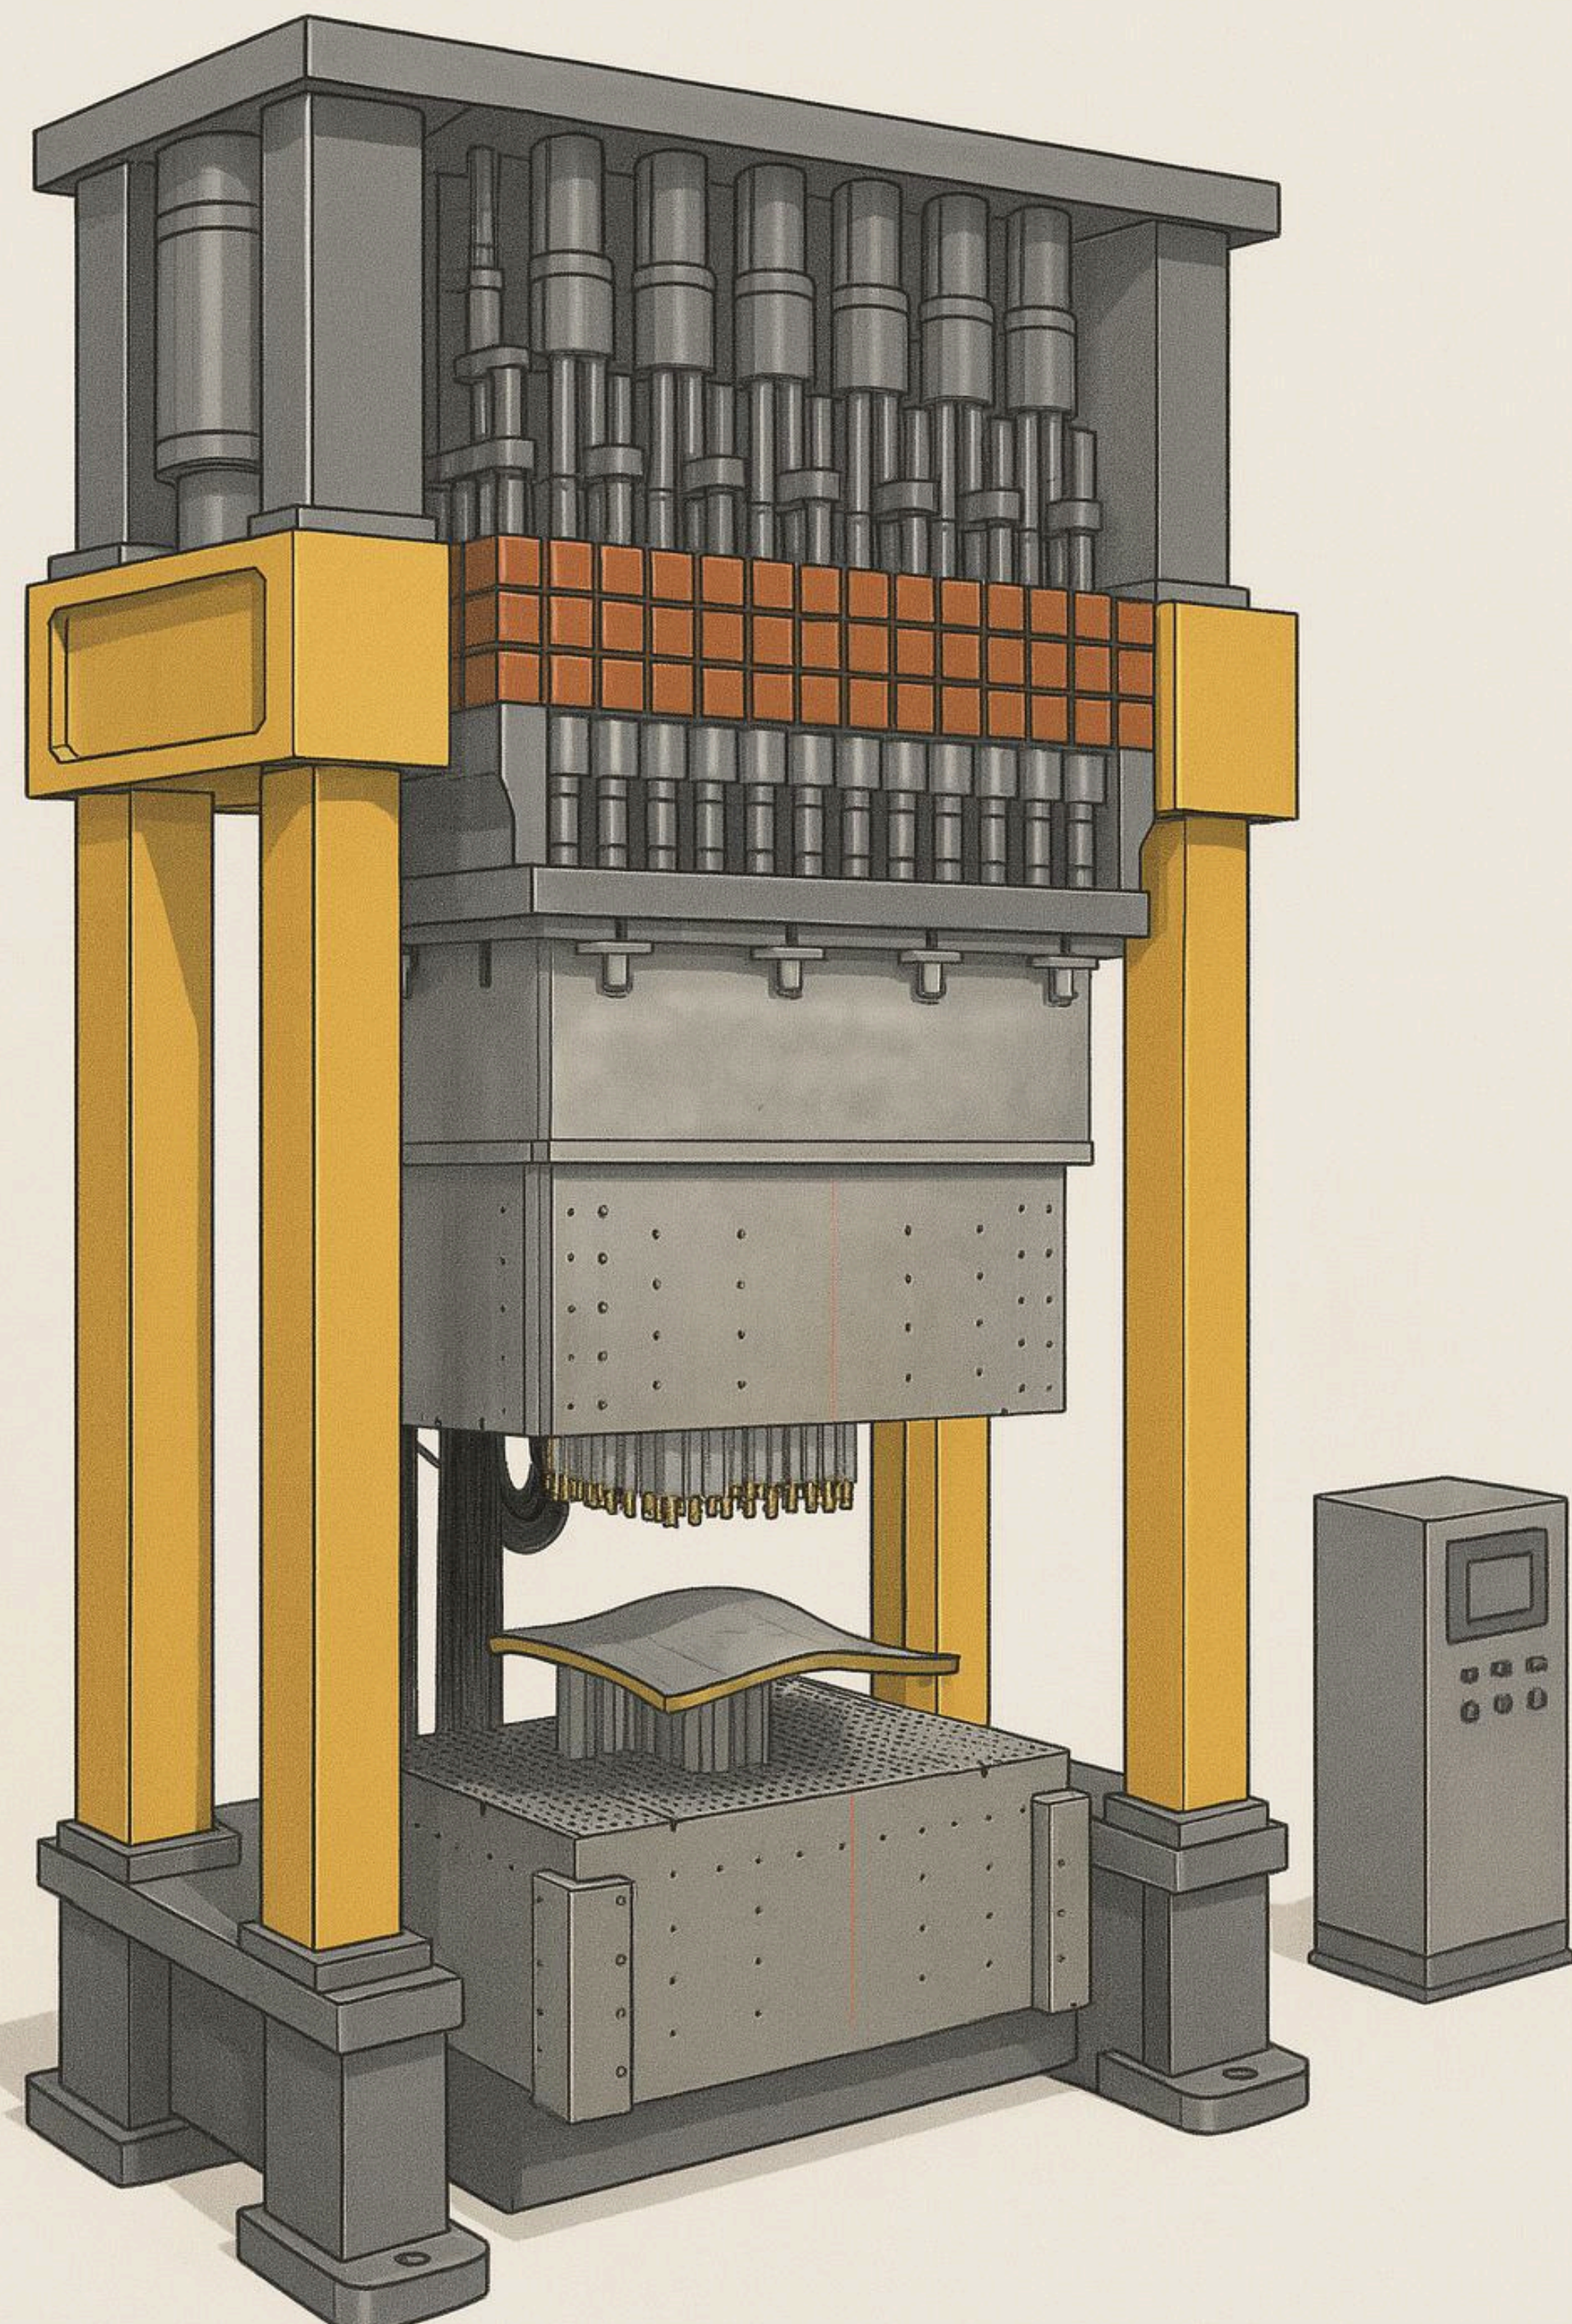

50 T

55 T

60 T

Installation dimension

L20m*W10m*H7m

Detailed Description

Workbench size : **On-demand customization**

Lattice cell sizes :

40mm*40mm

60mm*60mm

80mm*80mm

100mm*100mm

Force of lattice unit :

8000 N

10000 N

15000 N

30000 N

Lattice element travel : **400 mm**

Number of servomotors : **On-demand customization**

Data Source : **Rhino CATIA SolidWorks UG NX Autodesk Alias**

Software and interface : **Graphic processing, dot matrix preview, manual operation, complete setting function**

Production effect : **Radian greater than**

240 mm

360 mm

480 mm

600 mm

in diameter

Scope of production:

Aluminum alloy plate within

10 mm

15 mm

25 mm

30 mm

stainless steel plate within

05 mm

06 mm

10 mm

20 mm

Technical Support : **Free technical support, free installation and commissioning personnel ,free customized modification of the system**
